(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Jacobson (U. S. Pat. 6,499,227).

Jacobson shows a golf cart comprising at least one external surface 20 and an apparatus 10 with a body 35 having fastening mechanism (see Figs. 3A-3E) for securing the body inner surface against the at least one external surface and fastener 50 for coupling a glove to said at least one external surface which are arranged same as claimed.

3. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Ellenburg (U. S. Pat. 5,983,518).
